Digital transformering på riktigt

Lena Stridsman

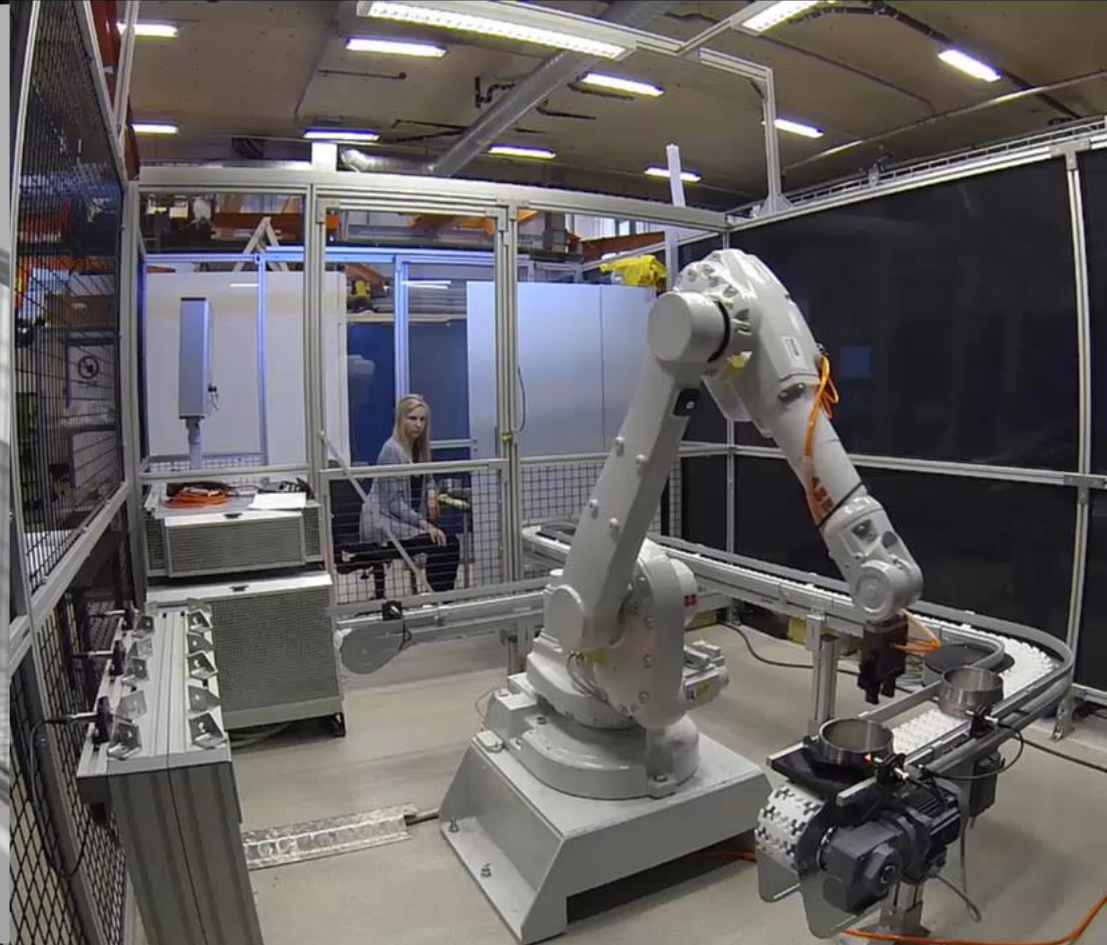

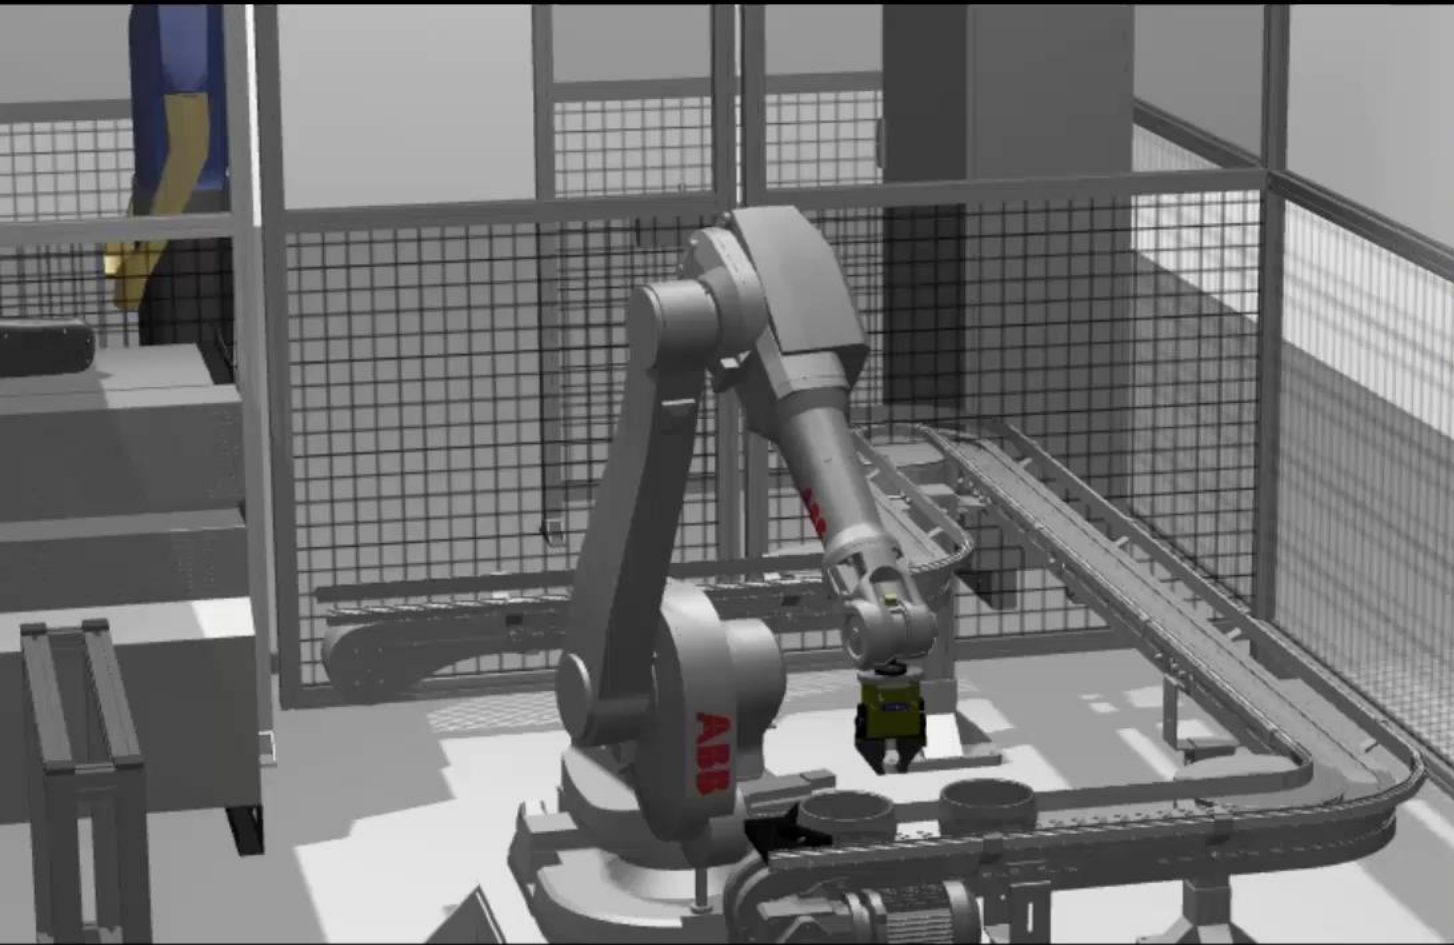

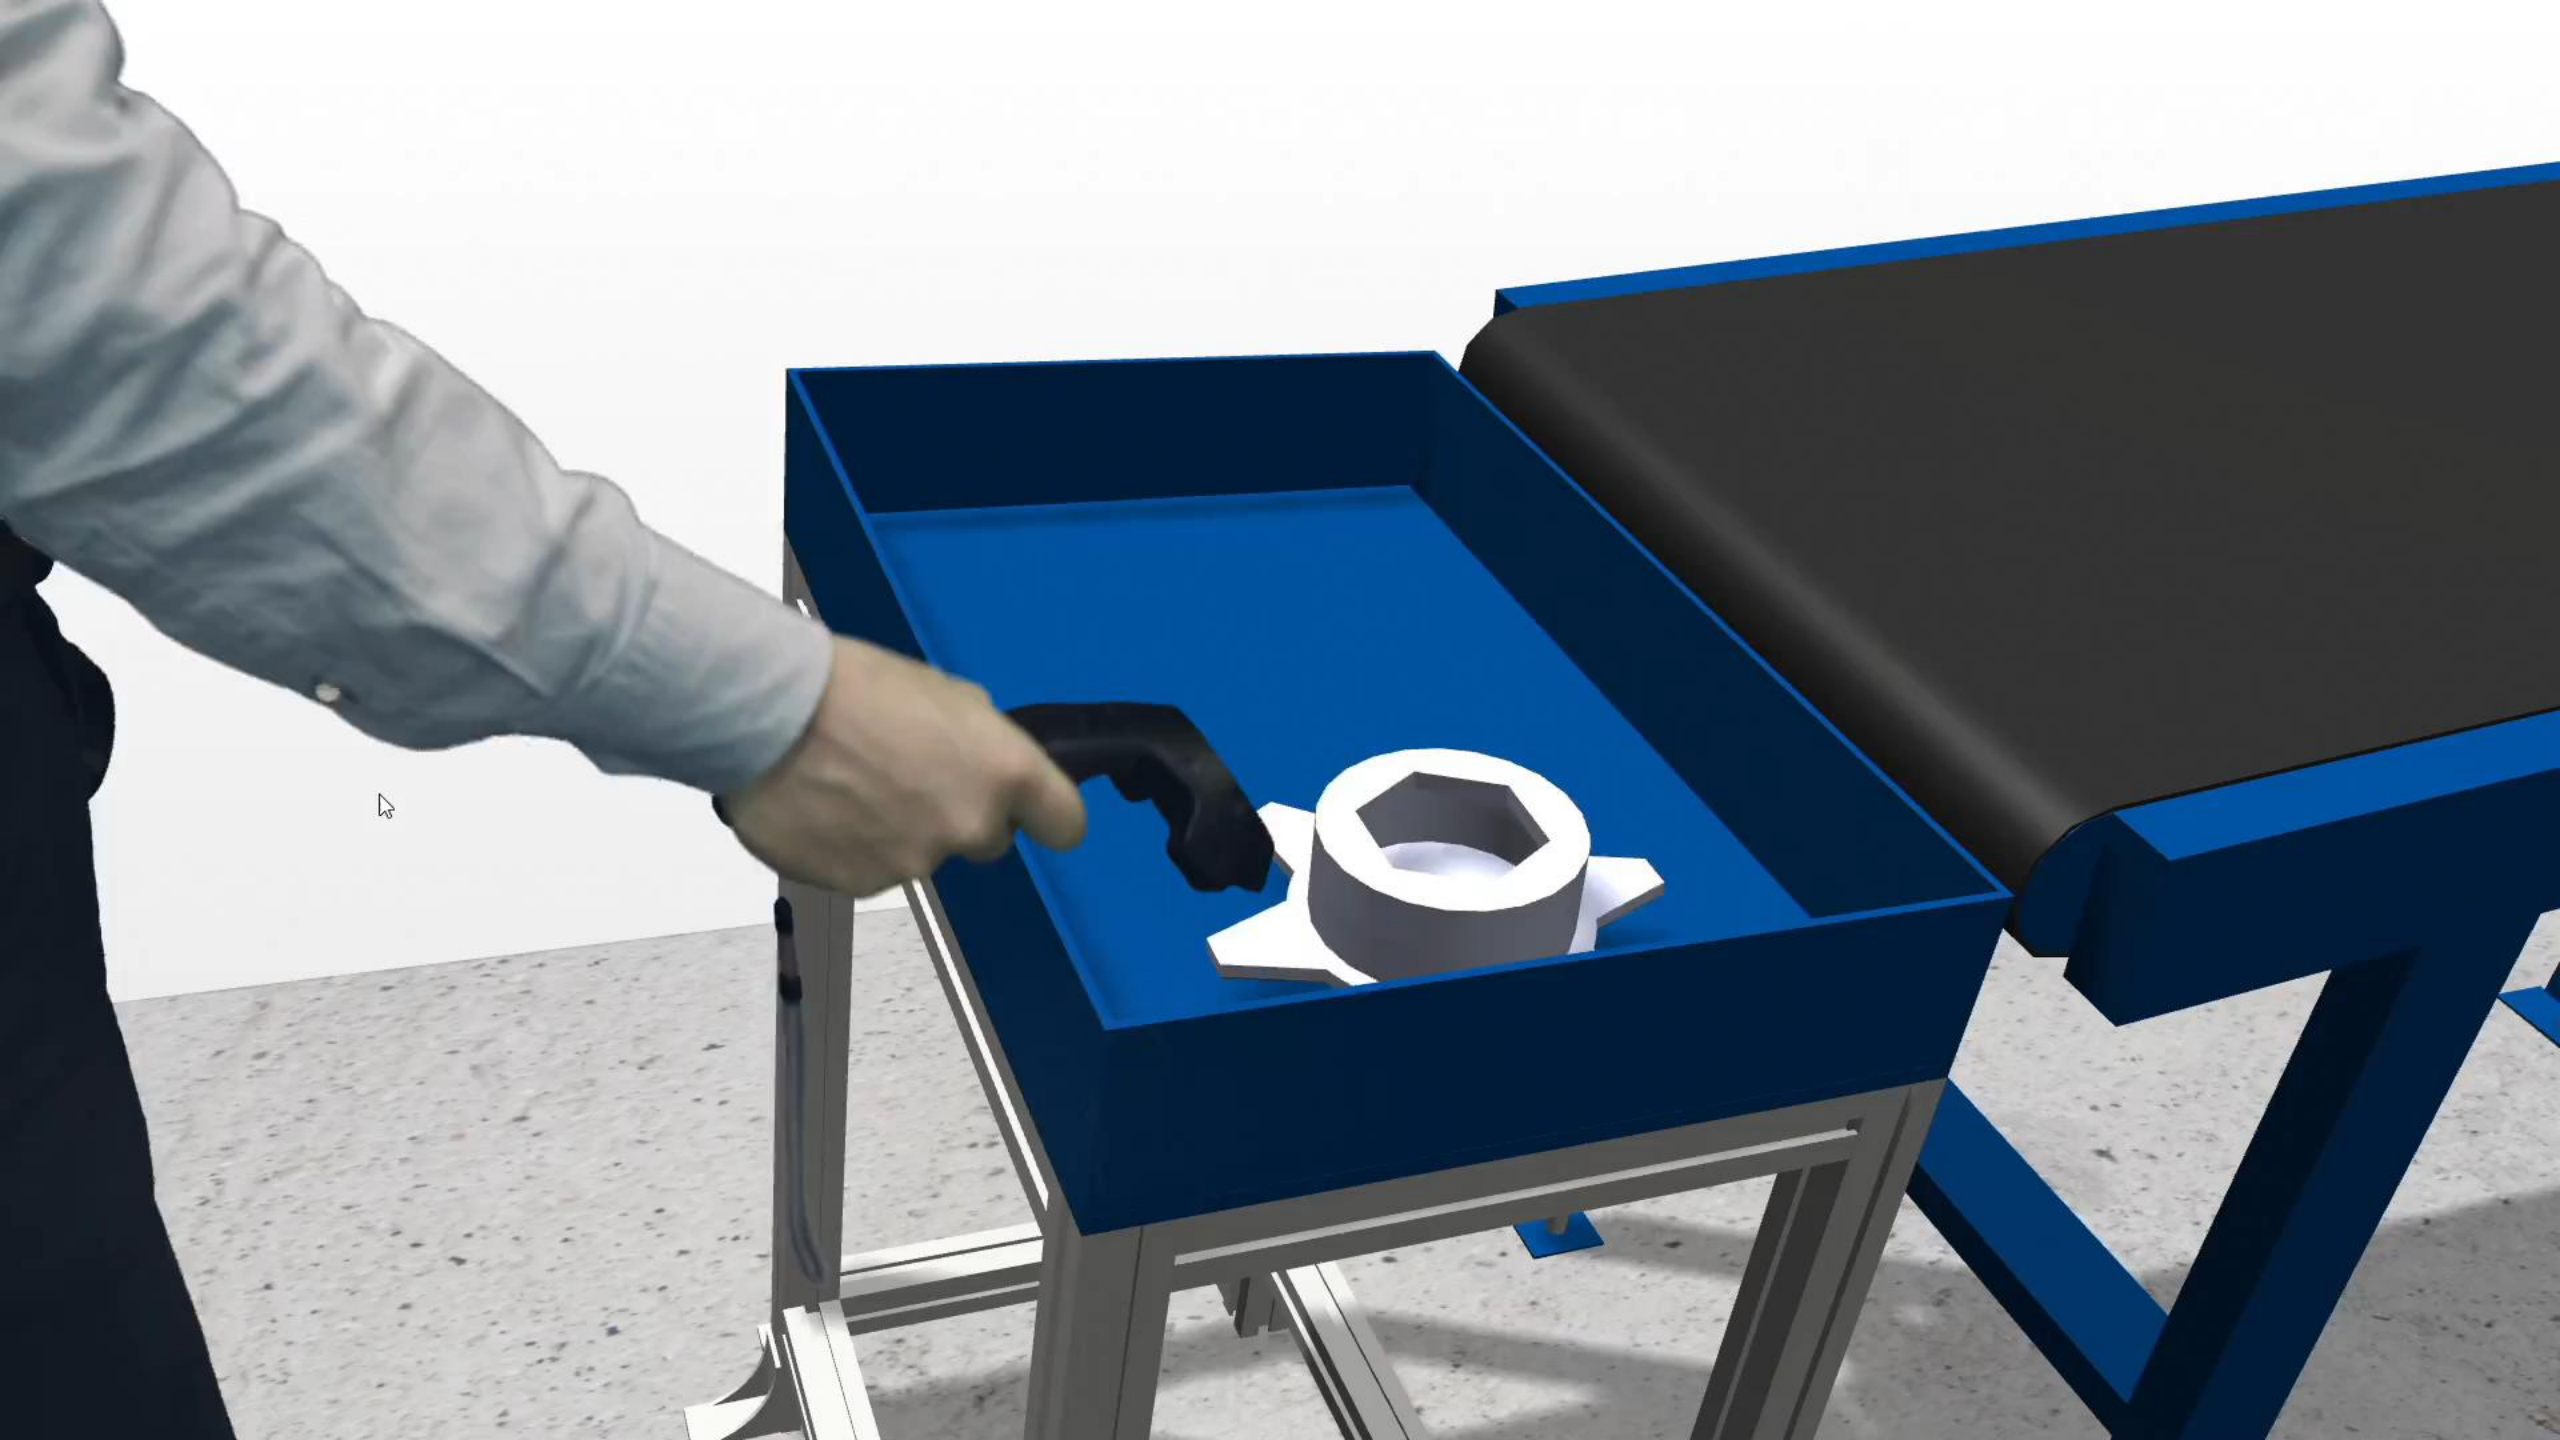

Up to 25% **fewer incidents**

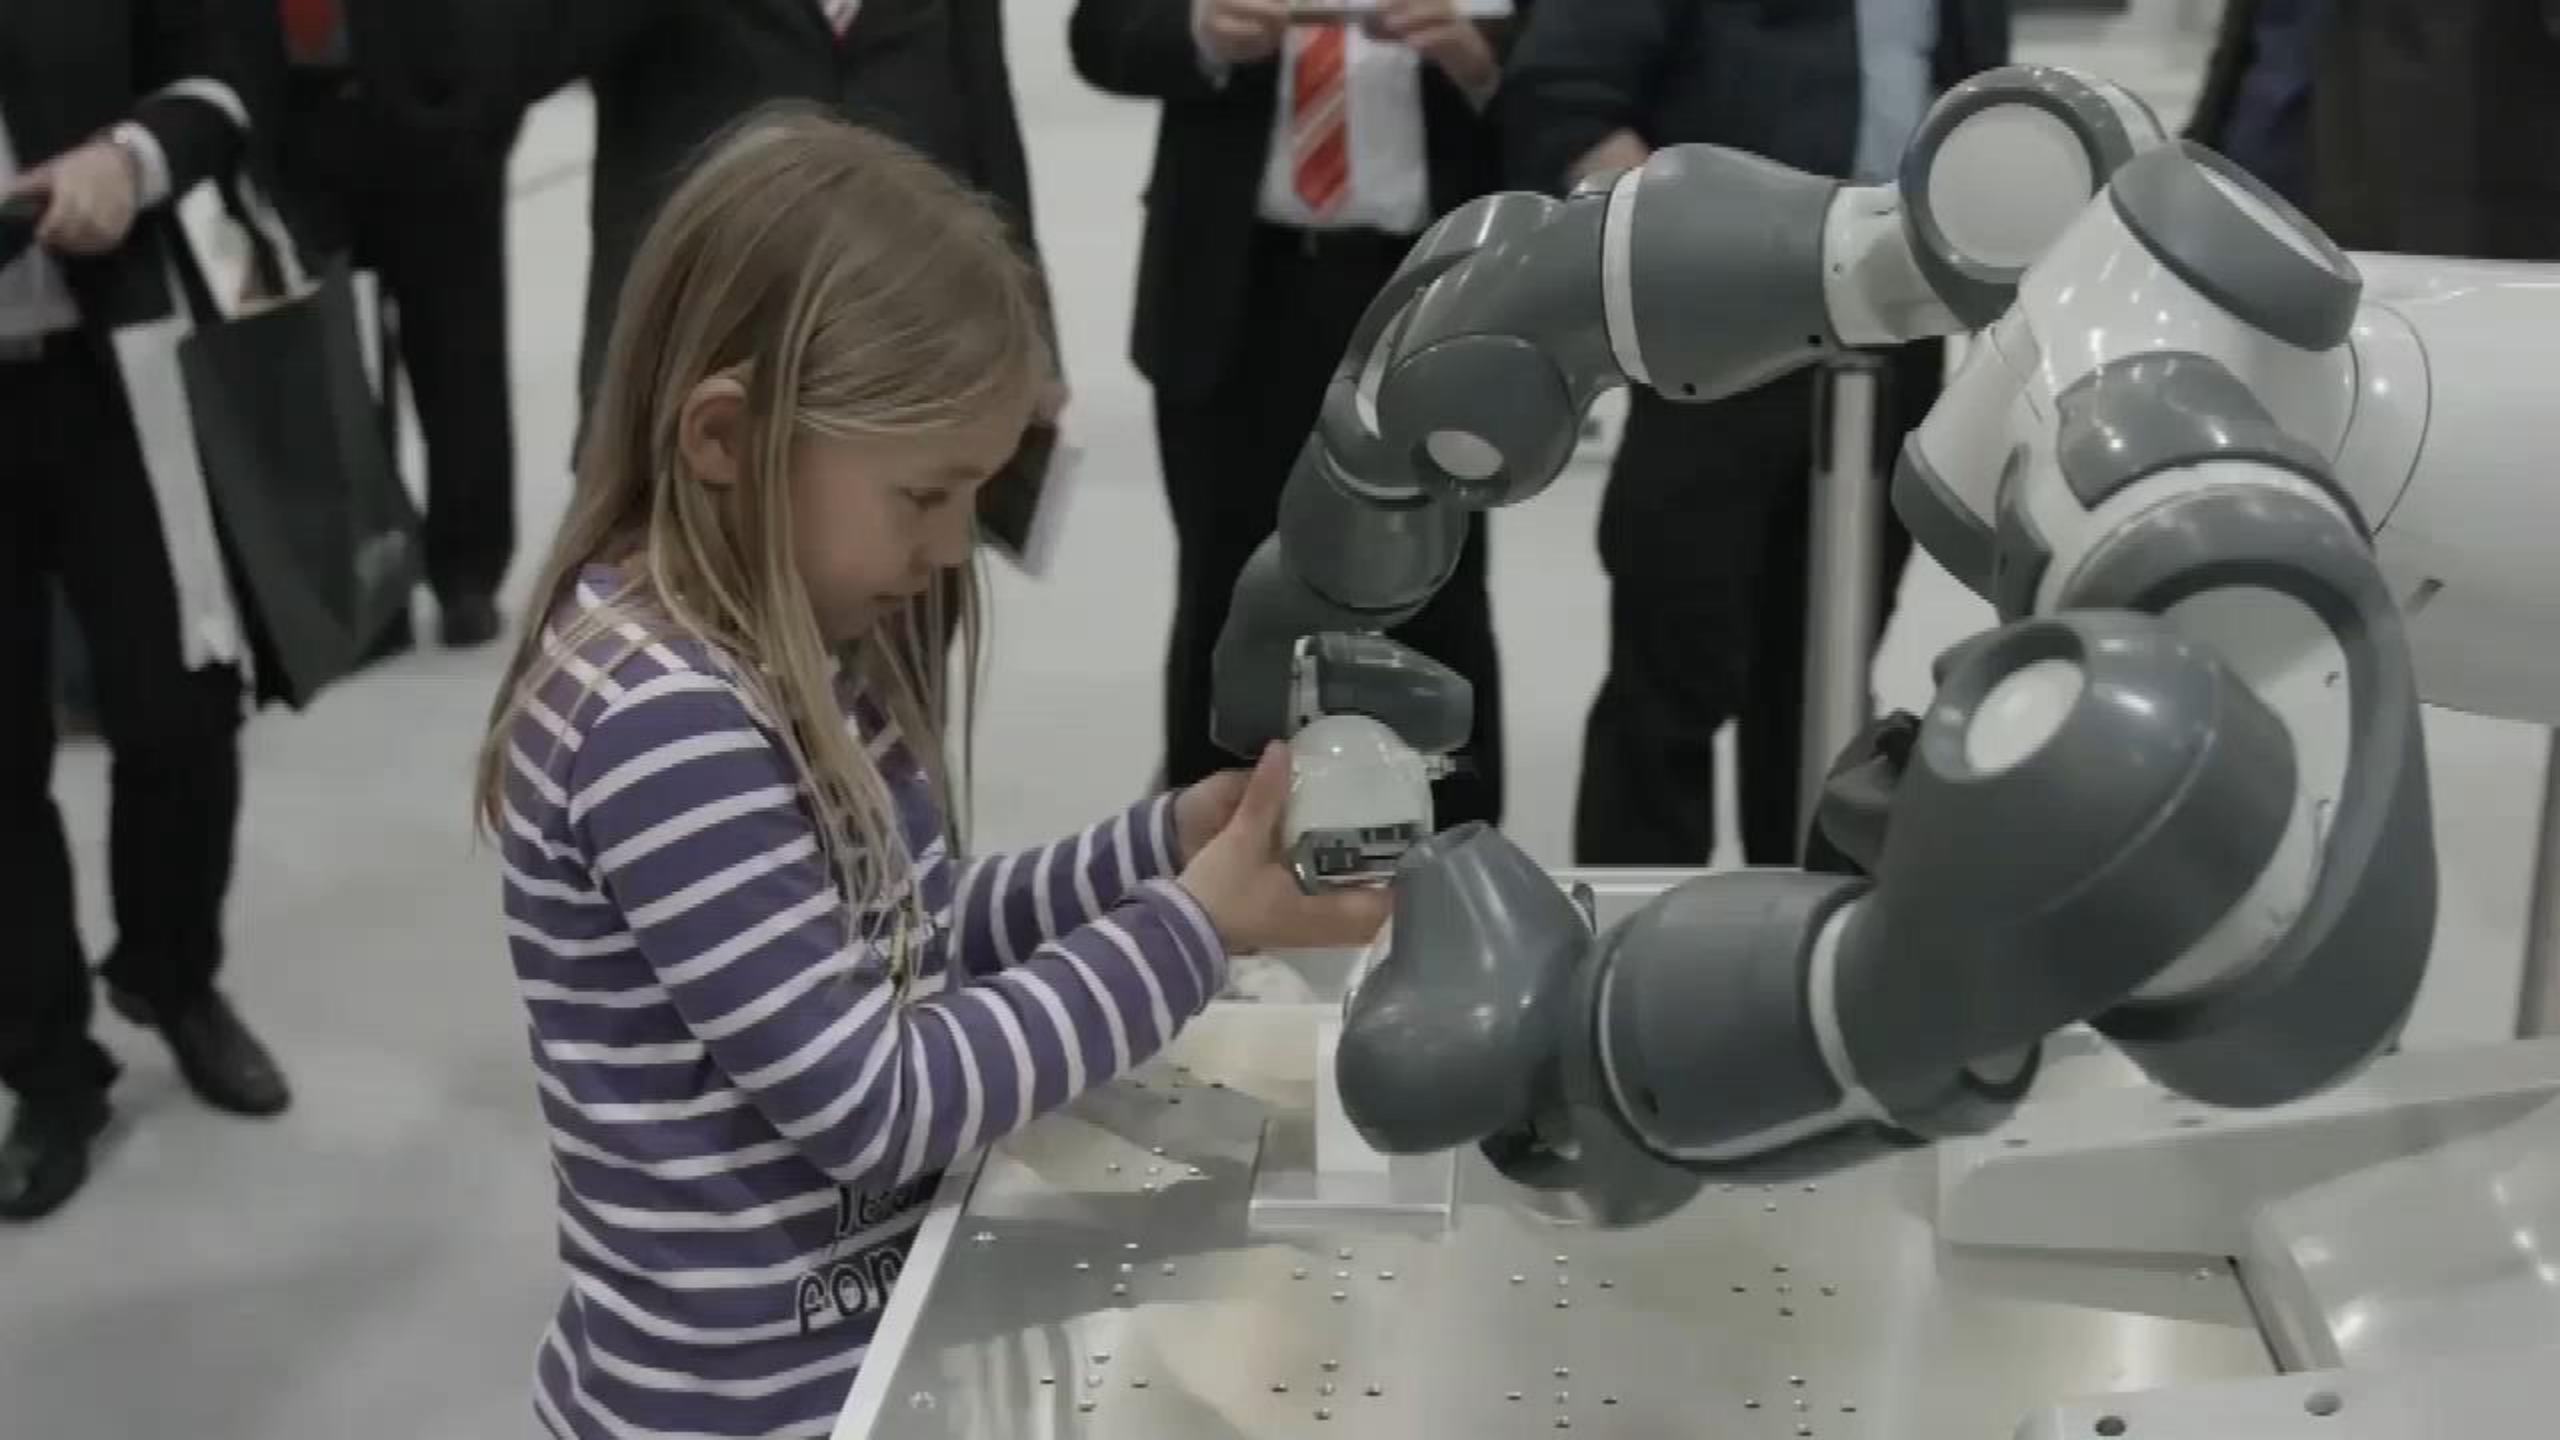

A photograph of a modern industrial environment. In the foreground, two workers, a man and a woman, are focused on a task. The woman, on the left, is wearing a black long-sleeved shirt and black pants with an orange tool belt. She is holding a grey, handheld device connected by a red cable. The man, on the right, is wearing a dark blue shirt with yellow reflective stripes and dark pants. He is also looking at the device. They are standing in front of a large, white industrial machine with a glass safety enclosure. The machine has a control panel with a screen and a vertical stack of colored lights (red, yellow, green, blue). In the background, another similar machine is visible, and the factory floor is clean and well-lit by large windows.
